

CALL FOR PAPERS

INTERNATIONAL SCHOOL ON NONSINUSOIDAL CURRENTS AND COMPENSATION

ISNCC 2010

Łagów, 15-18 June 2010

Honorary Chair

Manfred Depenbrock (Germany)

General Chair

Leszek S. Czamecki (USA)

Scientific Committee

Andrzej Bień (Poland)

Zbigniew Fedyczak (Poland)

Bogusław Grzesik (Poland)

Herbert Ginn (USA)

Zbigniew Hanzelka (Poland)

Marian Kaźmierkowski (Poland)

Wiesław Miczulski (Poland)

Marian Miłek (Poland)

Antonello Monti (Italy)

Marian Pasko (Poland)

Volker Staudt (Germany)

Paolo Tenti (Italy)

Edson E. Watanabe (Brazil)

Jacques Willems (Belgium)

Advisory Committee

Leszek Frąckowiak (Poland)

Henryk Tunia (Poland)

Organizing Committee

General Chair

Leszek Furmankiewicz (Poland)

General Secretary

Mirosław Kozioł (Poland)

Organizing Board

Radosław Kłosiński (Poland)

Grzegorz Kobyłecki (Poland)

Marek Florczyk (Poland)

International School on Nonsinusoidal Currents and Compensation 2010 (ISNCC 2010)

is a continuation, in reorganized form, of the former School on Nonsinusoidal Currents. It was held for the first time in 2008 as ISNCC 2008.

Systems with nonsinusoidal voltages and currents (NSV&C) shall be the focus area of the conference and in particular, power properties of such systems, compensation, identification, modeling, instrumentation, power electronics, supply and loading qualities, as well as energy accounts in systems with NSV&C. Participants are encouraged to investigate and discuss these issues from the perspective of the development of smart grids. Power Electronics implementations in systems with NSV&C shall also be included.

Half of the conference time shall be devoted to tutorials on systems with NSV&C.

The Conference shall provide a forum for presentation of new ideas and research results as well as an opportunity for a transfer, through tutorials, of the existing knowledge on systems with NSV&C to the younger generation of engineers and researchers. The conference shall provide an opportunity for discussion and exchange of experience between theoreticians, practitioners, experienced and beginner scientists interested in systems with NSV&C as well as researchers interested in smart grids development, having in mind that voltages and currents in present-day systems are usually nonsinusoidal and asymmetrical.

Conference venue is Łagów – a small but popular tourist centre, known as the *Pearl of Ziemia Lubuska*. It is situated in the middle of the Łagów Park landscape, among picturesque hills, by two deep and crystal clear lakes, Łagów and Trześniów.

Important dates:

February 28, 2010

submission of four-page paper outline

April 15, 2010

final confirmation of accepted paper

May 05, 2010

final date for confirmation of participation and sending fees

All positively reviewed papers will be available on the IEEE Xplore database and outstanding papers will be published in a special issue of *Przegląd Elektrotechniczny (Electrical Engineering Proceedings)*.
